

## Guidelines for Presentations

Depending on the area of interest, the papers will be assigned to one of the three sections of the conference: Chemical Engineering, Chemistry and Posters. Each participant may choose his presentation support (PowerPoint, poster) but if the consistence criteria for the chosen paper are not met, the organizers reserve the right to recommend the poster section.

Evaluation criteria include the originality and quality of your work, the importance and relevance of the chosen subject, methods of structural analysis and investigation techniques, level of personal contribution, etc. The year of study is not a determining criterion.

The conference addresses all students studying for a BSc or MSc degree.

## ABSTRACT REQUIREMENTS

Abstracts must be written in English and must not exceed 2 pages A5. They will be published in an abstract book given to every participant. Abstracts that do not comply with these requirements will not be taken into consideration.

We kindly ask the participants to use abstract template available into the website.

**The deadline for abstract submission is 6<sup>th</sup> April 2020.**
