

## Emerson – Summer Internship

As a technology-focused organization, EMERSON values the need to nurture and encourage young people fascinated by the elements of science. Thus, for the summer of 2015 Emerson, in Cluj, kicks off one of its student programs – the summer practice.

If you are fascinated by the world of technology and interested in the domain of **industrial process control**, this is your time – apply for our summer internship program.

### Summer Internship Offer:

- Formal Training for the systems we use.
- Up to 6 weeks of direct involvement in projects.
  - ✓ We are flexible in this respect.
